AUTHOR NOTES

Thanks to Alexandre Negrão Paladini, from Brazil; Terry Hoknes, from Canadá; Jeff Krueger, from United States of America; and Philip Madden, from England.

To remind a film, an actor or an actress, a musical score, an impact image, it is not so difficult for us, spectators of movies or TV. Really difficult is to remind from where else we knew this or that professional. To try to help you to clear up your memory, we included in Man has no understanding! filmography collections of important people in Planet of the Apes (1968), directed by Franklin J. Schaffner. These data were collected of several sources and, it is clear, they are subject to incorrectness, considering that in certain cases, the own artists have doubts on some productions dates.
