### Author's Note:

\* Based on actor Paul Stevens birthday on 17 January 1921 until his death on 4 June 1986. (*Battle for the Planet of the Apes*)

\*\* When Mendez died his son Mendez II was only 12 years old, so Janus was elected the leader regent until Mendez turned 20 to take over his duties as the 'Keeper of the Faith'.

\*\*\* Based on actor Paul Richards birthday on 23 November 1924 until his death on 10 December 1974. (*Beneath the Planet of the Apes*)

Other yearly figures are based on the current world average lifespan of human beings which equals 67.00 years, including the age of 21 which I believe, would be a good reasonable age for Mendez to marry and produce his son and heir to continue the lineage.

### Author's Note:

As you can see by my Timeline Table there have been 94 'Keeper of the Faith' oath of Office, Spiritual Leaders; 26 of them are Mendez, the last being Mendez 93 from his family, becoming Mendez XXVI. This may sound confusing but think of the Kings and Queens and even the Pope, where titles are concerned and inherited, e.g. the 93<sup>rd</sup> Mendez is the 93<sup>rd</sup> male bearing the name Mendez (*his family name*) but he is the 26<sup>th</sup> Mendez to inherit the title of the 'Keeper of the Faith' and thus be elected in turn as the Spiritual Leader of the 'Alpha-Omega' bomb and the Senior Guardian Leader of his mutant underworld commune. As you can see there are 19 Periods, each Period contains 1 leader/heir of their house, thus each complete election cycle of Houses is called a Period. Only Periods 1 and 19 break this transitional cycle.

## Author's Note:

There are five major houses or dynasties which developed amongst the mutants after the Nuclear War in 2006; after Governor Kolp died in 2018 trying to destroy Caesar's settlement, the houses only came into prominence and thus were fully developed after about 110 years when Mendez VI decided to reorganise the underdweller commune to best suit its needs, thus stabilising and increasing safeguards to protect the mutant society and the Alpha-Omega bomb, which had become their God—a symbol of worship, if it fell into the ape hands and/or just in case his family were no longer able to perform their duties (*possibly dying out from their inherit radiation exposure*). Thus along with Mendez, four other houses/dynasties were formed from the original scientists who survived the Nuclear War; these descendents (*their children*) introduced a hierarchy within their underworld society to help maintain their existence and survival. With the exception to Periods 1 and 19, each house took turns in being the commune's leader as well as it's spiritual leader with regards to their God (*The Alpha-Omega bomb*), having the title of the 'Keeper of the Faith'.
